City may suspend one or more payments to Partnership during the sixty (60) calendar day notice period.

5. Termination for Incurable Default. The City may immediately terminate this Agreement upon written notice (delivered in accordance with the notice provisions herein) to Partnership if:

Each party to this Agreement agrees that no other party, agent, or attorney of any other party has made any promise, representation, or warranty whatsoever which is not contained in
this Agreement. The failure or refusal of any party to read the Agreement or other
documents and obtain legal or other advice relevant to this transaction constitutes a
waiver of any objection, contention, or claim that might have been based on such actions.

10. **Drafting Ambiguities.** This Agreement is, in all respects, intended by
each party hereto to be deemed and construed to have been jointly prepared by the
Parties. The Parties hereby expressly agree that any uncertainty or ambiguity existing in
this Agreement shall not be interpreted against any of them. Except as expressly limited
by this paragraph, all other applicable rules of contract interpretation intended by law

this Agreement.

essence of all of the terms, covenants, and conditions of this Agreement. Except as
otherwise provided in this Agreement, all of the terms, covenants, and conditions of this
Agreement shall apply to, benefit, and bind the successors and assigns of the respective
parties, jointly and individually.

13. **Waiver.** City’s failure to insist upon the strict performance of any of
Partnership’s obligations under this Agreement, in one or more instance(s), shall not be
construed as a waiver of any such obligation, and the same shall remain in full force and

a default must be in a writing executed by City to constitute a valid and binding waiver.
City’s delay or failure to exercise a right or seek a remedy shall not be deemed a waiver
of that or any other right or remedy under this Agreement. The exercise of any particular
right or the use of any particular remedy for any default shall not waive the use of any
other right or remedy for the same default or for another or later default. City’s failure to
discover a default or take prompt action to require the cure of any default shall not result
in an equitable estoppel, but City may at any and all times require the cure of the default.

expiration or termination shall survive the expiration or earlier termination of this
Agreement.

15. **Governing Law.** This Agreement shall be governed, construed, and
enforced in accordance with the laws of the State of California.

16. **Counterparts.** This Agreement may be executed in any number of
counterparts, each of which when executed shall be deemed an original, but all of which
together shall constitute one and the same instrument.

17. **Consents, Approvals.** Neither City nor Partnership may unreasonably
withhold or unreasonably delay any consent or approval required by this Agreement.
18. **City’s Consent, Discretion.** Whenever required under this Agreement, City’s consent or approval shall mean the written consent or approval of the Mayor, or his or her designee (Mayor), unless otherwise expressly provided, without need for farther resolution by the City Council. City’s discretionary acts hereunder shall be made in the Mayor’s discretion, unless otherwise expressly provided. All references to “Mayor’s” herein shall be deemed to refer to the Mayor of San Diego or his or her designee for the duration City operates under the mayor-council (commonly referred to as “strong mayor”) form of governance pursuant to Article XV of the City of San Diego City Charter.

Scope of Services

Overview
Seven steps are anticipated, resulting in successful District renewal. The seven project steps are described briefly below and in more detail on the following pages.

Step One: Project Initiation
The structure needed to carry out the project will be created in this step. Civitas will work with the Partnership and property owners to identify their respective roles in the process. Civitas will also begin gathering database information in this step.

Step Two: Informational Meetings
In this step, informational meetings will be held. Civitas will gather information and provide educational, unbiased, factual information as needed. Only non-advocacy work will be reimbursable.

Step Three: Management District Plan Development
Civitas will work with the Partnership and stakeholders to develop the Management District Plan, the district’s governing document.

Step Four: Plan Review
Civitas will submit the draft Management District Plan to the Partnership, stakeholders, and the City for review, and make changes as necessary.

Step Five: Petition Preparation
In this step, the petition will be prepared and Civitas will ensure that it meets the requirements of the law.

Step Six: Petition Distribution
In this step, the petition will be distributed by the Partnership and Civitas will only be providing educational, unbiased, factual information as needed when questions arise.

Step Seven: City Council Hearings and Ballot
Civitas will attend all Council meetings or hearings and answer questions as needed.
Step One: Project Initiation

This step will clearly identify the roles of each party in the renewal process, and develop the infrastructure that will lead to successful District renewal.

1.1 Develop Project Parameters
Civitas will work with the Partnership and stakeholders to clarify project parameters. Assignments for Civitas, the Partnership, and stakeholders will be established.

1.2 Establish Leadership
A steering committee including key business and property owners will be formed. Civitas will work closely with the steering committee and provide the overall guidance needed to keep the project moving forward. The steering committee will eventually be responsible for leading the petition drive.

1.3 Database Development
The foundation of the district renewal process is a thorough and accurate database. Civitas will use GIS software and existing audited data from the City’s 2011 audit as supplemented by annual updates to create and maintain a complete database of district properties. The database will include variables like property owner name and mailing address, lot square footage, building square footage, and linear frontage. Civitas will continue work on the database throughout the project.

Step Two: Owner Outreach and Meetings

Civitas proposes to hold a series of meetings to reach out to property owners. The meetings will assess service priorities and the support level for the district. Clarification of the City’s participation in the district will also begin in this step. During these informational meetings, Civitas will gather information and provide educational, unbiased, factual information as needed. Only non-advocacy work will be reimbursable.

2.1 Property Owner Meetings
Civitas will be available to provide educational, factual, non-advocacy information to property owners at meetings.

2.2 Property Owner Survey
Owner outreach may include mailed or online surveys to identify properties for services and their priorities for services.

2.3 Draft Service Plan
Based on input from property owners, Civitas will prepare a draft service plan for the District. The draft will be used at owner and steering committee meetings, and revised throughout the outreach process based on feedback received. The draft service plan will eventually become the basis of the Management District Plan.

2.4 Handouts
Civitas will prepare and provide informational handouts on PBIDs and will assist in preparing FAQ sheets and similar handouts specific to the District. Handouts that are eligible for reimbursement will be limited to educational, unbiased materials that service to provide factual information and do not advocate for a single position.

2.5 Base Level of Services Negotiation
Civitas will work with the City to clarify the base level of services the City will continue providing to the district. Civitas will provide a model base level of services agreement.

Step Three: Management District Plan Development

Based upon input gathered from property owners, Civitas will develop a draft Management District Plan for the district.

3.1 Service Plan and Benefit Zones
Based upon previously obtained input, Civitas will create a final service plan and budget incorporating any desired benefit zones. The service plan will include service descriptions and annual operating costs.

3.2 Engineer’s Report and Assessment Formula
Preparation of an engineer’s report supporting the assessment is required. This proposal includes the fees of a professional engineering firm, Bennett Engineering Services, to prepare the report. Civitas will work with the Assessment Engineer to develop an assessment method and formula that is based on the service plan and any benefit zones. This assessment information will be applied to the database to generate revenue estimates and individual parcel assessment amounts. The engineer will analyze the assessment formulas and test their ability to spread benefits fairly and proportionally and provide ultimate approval/certification.

San Diego - Downtown Property and Business Improvement District Proposal
3.4 Draft Management District Plan

Civitas will prepare a draft Management District Plan that complies with applicable laws and is a user-friendly education tool. The Plan will include:

- Summary
- District rationale and objectives
- Boundaries and benefit zones
- Service plan options and budgets
- Assessment methodology
- Governance structure
- City base level of services, if applicable
- Rules, regulations and timetable
- Exhibits including a map and list of parcels to be assessed

Step Four: Management District Plan Revision

The draft plan will be presented to the Partnership, property owners, and City officials. The Plan will be revised based on their input, and a final plan presented to the City Attorney for review. The feasibility of renewing the district will be evaluated throughout this step.

4.1 Plan Review

After review by City staff, Civitas will present the draft Plan to the steering committee for their review and input. Once the steering committee has approved the Plan, it will be submitted to key property owners for input.

4.2 Final Plan

Based on steering committee and property owner input, Civitas will draft a final Management Plan. The Plan will be submitted to the City Attorney for review. Civitas will work with the City staff to incorporate their comments and finalize the Plan.

4.3 Legal Review

Civitas’ in-house legal staff will review the plan and ensure it is compliant with the 1994 Law and any other applicable statutes.

4.4 Final Plan

Based upon property owner and City input and legal review, Civitas will prepare the final Management District Plan.
Step Five: Petition Preparation

5.1 Draft Petition and City Review
Prior to dissemination to property owners, Civitas will draft the petition and submit it to the City Attorney for review. As required by law, the draft Petition will include a cover (signature page), a summary of the Management District Plan, and a district boundary map. Also as required by law, the draft petition will include customized property owner and property information.

5.2 Final Petition
Civitas will update the draft petition based on comments from the City. The previously prepared database will be used to generate each property owners' petition. Individual petitions will include a list of all properties owned by the individual, with the parcel number, parcel assessment, and total assessment.

Step Six: Petition Distribution

6.1 Petition Distribution
After the final petition has been reviewed by the City, Civitas will assist in distributing petitions to property owners. Services will include generating an electronic or hard copy of all petitions, and if desired assisting in mailing or distributing petitions. If desired, Civitas will help the City tabulate returned petitions.

Step Seven: Hearing Process

7.1 Ballot Preparation
