**Notes:**

The preliminary methodology (shown in yellow) counted two individuals per tent and two individuals per vehicle.

On April 27, 2017, the Clean & Safe program adopted the counting methodology used by the Regional Task Force on the Homeless. Per the methodology (represented above by the dark green cells), Clean & Safe staff counted 1.75 individuals per visible tent/structure and 1.66 individuals per vehicle that showed clear signs of habitation.

In May 2018, the Regional Task Force on the Homeless updated the methodology for vehicles to 2.03 that shows clear signs of habitation (the methodology of 1.75 individuals per tent/structure remained the same). The Clean & Safe program implemented this methodology on May 31, 2018 (represented in orange).

In January 2020, the Regional Task Force on the Homeless stopped using methodology for vehicles and structures, however, the Clean & Safe program continues to use the methodology.

In September 2020, the count was performed on September 29th and delayed 6 days due to social unrest and safety concerns. The count was scheduled to be conducted on September 23rd, 2020.

* Denotes the months that The Downtown Fellowship of Ministries and Churches collaborated with us on the monthly homeless sleep count.

**East Village breakout areas include the following:

- North East East Village is the area north of Market Street & east of Park Ave.
- North West is the area north of Market Street & west of Park Ave.
- South East is the area east of Park Ave. south of Market Street
- South West is the area west of Park Ave. south of Market Street

On May 31, 2018, the Clean & Safe Program adopted the new methodology used by the Regional Task Force on the Homeless to count homeless individuals. The methodology does not involve counting individuals per visible structure and will count 1.75 individuals per vehicle. It will also be used for the count of encampments. The methodology will be used for the count of individuals in Department of Housing communities, RHCs, and mobile units. The methodology will also be used to count individuals in Department of Housing communities, RHCs, and mobile units.
On May 31, 2018, the Clean 6 Safe Program adopted the methodology used by the Regional Task Force on the Homeless to count homeless individuals. The methodology involves counting homeless individuals per available bed. The survey begins at 7:00 PM and is conducted on the streets and in areas where homeless individuals are likely to be found.

On May 31, 2018, the Clean 8 Safe Program adopted the methodology used by the Regional Task Force on the Homeless to count homeless individuals. This method, known as the "Clean 8 Safe" or "Clean 8 Safe 3.0," is designed to provide a more accurate count of homeless individuals by using a systematic approach that includes follow-up visits to those initially identified. The methodology relies on trained staff to conduct intensive street outreach and to count individuals in various settings, including tents, vehicles, and other temporary shelters. The data collected is used to inform policy and resource allocation efforts aimed at addressing homelessness in San Diego County.
